

# Superwinch ROAM

*Connect your winch via Wi-Fi!*

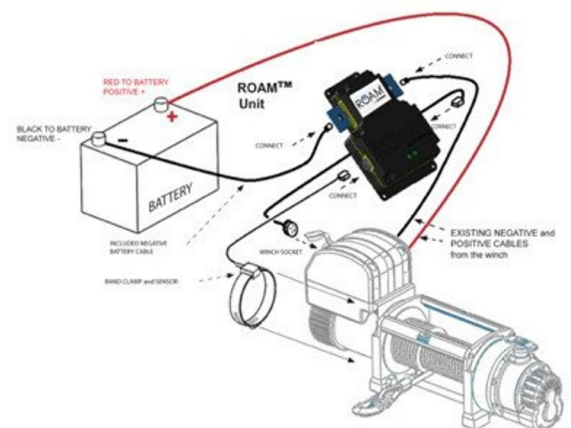

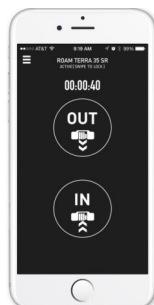

Control your winch with Superwinch's award-winning ROAM networked system.

Operate while simultaneously monitoring critical performance data.

ROAM connects your winch to your favourite smart device.

- motor temperature (with preset warnings for your particular Superwinch)
- run time
- amp draw (with preset warnings for your particular Superwinch)
- battery voltage
- Estimated Load
- Estimated Speed
- Wireless remote control with a range over 50'
- Save winch session history
- Post winch session stats to social media and email - Facebook and Twitter
- live chat through app for tech support
- toggle between US and metric measurements
- swipe to pause winching
- Remote control limited to one device

**ROAM is hardware and software. The hardware is a logic box that mounts on your vehicle.**

**The software is downloaded from the Apple App Store or the Google Play store.**
